Subject: CPMG Provider Note_ Access to Carelink/Epic

As discussed with most of you at recent office visits, CPMG would like to assist our Pediatricians and their staff in gaining access to either Carelink or Epic (the EHR for Rady Children's Hospital of San Diego). Carelink is a web-based version of Epic, that allows community providers real-time access to their patients' medical records. CPMG strongly encourages the use of Carelink to enhance the coordination of care throughout our network.

All pediatricians, their medical staff (including medical assistants) and office managers are offered free access to Carelink. CPMG will work with RCHSD to obtain a Username and Login and ensure that you are able to access the website.

If interested, please respond to this email with the following information:

1. Practice Name:
2. First and Last Name of Physician or employee and Title:
3. Place of Birth (City and State OR Country if born outside of U.S.):
4. Date of Birth (Month and Day):

Thank you,

Darcie Babyak
